End-Grain Veneers

In the true essence of “the fingerprints of nature,” our end-grain veneers inspire everyone, especially aficionados of the industry and of our product. Never was the statement “every tree, log and flitch are one of a kind” more true. We are extremely proud to offer these one-of-a-kind gems in various species for that absolutely special piece you have in mind. With a little imagination, we can help you achieve a true work of art. For more information, please call or email. We look forward to hearing from you.
