Dimensions in Veneer

Having won numerous awards and gaining ever more interest within the European design community, the line of veneer we call Textür is unlike any conventional veneer. Whether finished in the wood's own natural color or stained per design intent, the combinations and possibilities of visual and tactile 3-dimensionality one can achieve with this innovative surface material are truly limitless. As shown above: Quartered Oak Textür in grey with silver ceruse.

For more information or to obtain samples, please call or email. As always, we look forward to hearing from you.
