In 1989 Scott Brogan, founder of SBG, went through formal training in the veneer industry in Europe. It was exactly at that time that the spark for this product ignited. Our foundation was built on hardwood veneer, its uses and its value as a purely natural product, beautiful in every respect. Brogan Wood Products is a premier source for hardwood veneer. Our product line ranges from all the standards to dyed veneers, a complete range of composite veneers and even specialty veneers utilizing innovative production methods and materials. Our global partners afford us the ability to surpass the norm. BWP is certified to FSC standards for chain of custody and FSC® controlled wood certifications.
