Presenting Matsu – Japanese Obi laminated in glass, a development by the Scott Brogan Group. The traditional, intricate, hand woven silk fabrics of the Kimono and Obi date back over a millennium. These timeless pieces are a fundamental part of the Japanese culture. The Scott Brogan Group has direct access to these silks through its relationship with Kimono New York – whom SBG represents promoting the use of Obi in fine furnishings and décor. We are pleased to offer these special fabrics in our exclusive Vivente line of laminated glass.
