**inspired by the fingerprints of nature**

## Allegretto™ Veneers

Allegretto™ offers our clients a more tailored product. We produce it paperbacked, phenolic backed as a 2-ply wood on wood or on MDF or PBC.

The veneers available within this line include any natural wood veneer or any composite wood veneer. Dyed Natural veneers are not available within this line of production.

You control how the veneer is matched across the production of goods and sequence is always maintained per elevation or per product. Standard sizes are 4 x 8, 4 x 10, 5 x 8 and 5 x 10. Cross grain option is available some minor cutting to size. Lead times vary from 3 to 4 weeks once veneer samples are approved.

For even more tailored goods, including cut to size per elevation, inclusion of doors within paneled elevations and the inclusion of Dyed Natural Veneers, we offer our full service custom production.

Birdseye Maple and Moabi Pommele - both on 10ml paperback
