Allegro™ Paperbacked Veneers

Allegro™ is our quick ship, “off the shelf” line of 10ml paperbacked veneers. Produced using standard species, the sheets are either 4 x 8 or 4 x 10. The grain always runs the height, there is no cross grain option in this production.

We produce these sheets using a running match, sometimes slip matched and other times book matched. The goal is to yield as much as possible from the flitch of veneer.

Orders are pulled from the top of the pallet, and do not guarantee sequence. In addition to which, we cannot guarantee all the sheets will have been produced from the same flitch. This product lends itself very well toward mass production of wood products as well as smaller needs that might only require one or two sheets.

For a more tailored, custom produced paperbacked veneer product, see our Allegretto™ line.
