

Fortissimo™ Pre-Finished Custom Carved Panels

Above: Baltic Birch Panels, with blackened lines finished with a clear satin lacquer.

What began in 2019 as a simple idea of creating a moderately priced, pre-finished panel product, using very simple geometric patterns and readily accessible material has developed with our ability to customize into a whole other ballpark of opportunities.

Still pre-finished, completely cut to size and ready for installation by others, we have broadened the scope to include custom doors, typically a Filo Murro style, “flush with panel”, and matched sets of panels, where the pattern can slip or book based upon design intent.

For More information, please email:
info@scottbrogangroup.com or call the
office number listed below.

Proudly Manufactured in the USA

Above: Rift European Oak, custom stain, blackend lines with more intense patterning, no actual panel match.
