

## Pianissimo™ Micro Perf Panels and Doors

Available in any species of natural veneer, Dyed Veneer or Composite Veneer Pattern.

Not all species / types of veneer will be available as solids for exposed edges. Our solution in those cases, is to use an engineered 3 ply or 5 ply veneered edge from the same veneer.

As shown in Rift White Oak - Pianissimo™ Panel

As shown in Rift White Oak - Pianissimo™ Door

Available in different thicknesses and sizes based upon project specific needs. Completely manufactured to size.

Production available using fire rated materials.

Available pre-finished with a clear finish. Staining is possible, but not recommended due to the nature of the perforations.
